Grid Tables Examples

Examples taken from: https://pandoc.org/demo/example33/8.9-tables.html but with extra Quarto features.

Grid tables look like this:

Fruit	Price	Advantages
Bananas	€1.34	• built-in wrapper • bright color
Oranges	€2.10	• cures scurvy • tasty

Table 1: Table width bullet lists

Fruit	Price	Advantages
Bananas Bananas	€1.34	built-in wrapper built-in wrapper
Oranges	€2.10	This cell contains text which should be wrapped over multiple lines tasty table cells.

Table 2: Table width hard line breaks

The row of =s separates the header from the table body, and can be omitted for a headerless table. The cells of grid tables may contain arbitrary block elements (multiple paragraphs, code blocks, lists, etc.).

Alignments can be specified as with pipe tables, by putting colons at the boundaries of the separator line after the header:

Right	Left	Centered
Bananas	€1.34	built-in wrapper

For headerless tables, the colons go on the top line instead:

Right	Left	Centered

A table foot can be defined by enclosing it with separator lines that use = instead of -:

Grid tables look can also have extra style configurations

Fruit	Price	Advantages
Bananas	€1.34	• built-in wrapper • bright color
Oranges	€2.10	• cures scurvy • tasty

Table 3: Custom styling
